Dear Mr. Brown:

Thank you for your request to serve the inmates at Sierra Conservation Center (SCC) by providing a program for digital currency. I have read your information and found it to have merit and would be a commendable approach. I truly feel this idea would be a real value to the inmates as well as the prison.

The program you are proposing though would have to be instituted at the Department level. I would ask you to make your proposal to the Inmate Welfare Fund as they are the entity responsible for inmate funds. Renee Colovos would be better able to answer your questions as she is based in the Inmate Welfare central office. She can be reached at (916) 255-0953. I have already reached out to her about this wonderful idea.

Best of luck

Sincerely,
